About Rudra IT Solutions

A growing technology and talent solutions partner built around quality, responsiveness and long-term relationships.

Rudra IT Solutions India Pvt. Ltd. is a dynamic technology and talent solutions company established in November 2025. Within a short period, we have built a 40+ member professional team and established active relationships across multiple clients and business partners in India.

We specialise in IT staffing, recruitment, resource augmentation and technology services, supporting organisations that need reliable, quality-focused talent and technology partners. Our team comprises recruitment professionals, technology consultants, sourcing specialists and support teams — enabling us to handle multiple requirements simultaneously.

2025 Founded	40+ Professional Team	India Client & Partner Network

02 | FOCUS

What We Bring

Practical delivery capability across people, technology and workforce needs.

Talent Delivery IT and non-IT recruitment with quality-focused screening.	Workforce Scale Flexible resource augmentation for short- and long-term needs.	Technology Support Consulting, infrastructure, application and technology services.
Client Partnership Transparent communication and dedicated coordination.	Specialist Sourcing Support for niche and difficult-to-fill technology positions.	Flexible Models Permanent, contract, contract-to-hire and resource deployment.

Our Core Services

A broad service portfolio designed to support hiring, workforce scaling and technology delivery.

• IT Recruitment	• Non-IT Recruitment	• Permanent Hiring
• Contract Staffing	• Contract-to-Hire	• Resource Augmentation
• Niche Technology Hiring	• Lateral & Bulk Hiring	• On-Site Resource Deployment
• Technology Consulting	• IT Infrastructure & Support	• Application Support & Services

Technology Expertise

Our sourcing and delivery network covers a wide spectrum of technology skill sets.

• Software Development	• Cloud & DevOps	• Cybersecurity
• SAP & Enterprise Technologies	• Data Engineering & Analytics	• AI & Machine Learning
• QA & Testing	• IT Infrastructure & Operations	• Automation & Scripting
• Database & Middleware	• Project & Programme Management	• Business Analysts

Recruitment & Talent Solutions

End-to-end recruitment support from requirement understanding through onboarding coordination and post-offer support.

01 Understand Clarify role, skills and business need.	02 Source Activate relevant talent channels.	03 Screen Assess experience and role fit.
04 Validate Check suitability before submission.	05 Present Share relevant, qualified candidates.	06 Interview Coordinate the interview journey.
07 Select Support offer and selection stages.	08 Onboard Coordinate joining requirements.	09 Support Maintain communication post-joining.

Our team supports both regular-volume and niche, specialist technology requirements, with a focus on understanding the client's need before presenting candidates.

Resource Augmentation

Helping clients scale teams with qualified technical professionals without the delays of traditional hiring cycles.

• Short-Term Requirements	• Long-Term Placements	• On-Site Resources
• Remote Resources	• Contract Professionals	• Specialist Technical Consultants

Why Choose Rudra IT Solutions?

We aim to deliver quality talent, transparent communication and scalable solutions — not just CV submissions.

Quality-Focused Delivery Rigorous screening before every candidate submission — we present people, not profiles.	Faster Turnaround A lean, responsive team with strong sourcing networks for rapid response to requirements.	Niche Hiring Capability Specialist sourcing for difficult-to-fill, niche and senior technology positions.
IT & Non-IT Capability Full-spectrum recruitment across technology, operations, business and support functions.	Flexible Engagement Models Permanent, contract, contract-to-hire and resource augmentation — adapted to your model.	BGV Coordination Background verification coordination as part of post-offer support.
Transparent Communication Regular updates, honest feedback and clear status reporting at every stage.	Scalable Solutions Our 40+ member team can support volume hiring and multiple concurrent requirements.	Long-Term Partnership We invest in understanding your business, not just filling an immediate vacancy.

Partnership Models

We actively seek long-term partnerships with organisations that have recurring hiring or resource needs.

WHO WE WORK WITH

Partner Profiles

• IT Staffing Companies	• Recruitment Agencies
• Prime Vendors & System Integrators	• Corporate HR Teams
• MSP / VMS Partners	• Technology Companies
• Organisations with Recurring Hiring Needs	

HOW WE ENGAGE

Engagement Models

• Permanent Recruitment	• Contract Staffing
• Contract-to-Hire	• Resource Augmentation
• Recruitment Sub-Vendor Partnership	• Technology Resource Deployment
• Niche / Specialist Sourcing Support	

Our Team

Our 40+ member professional team is the foundation of our delivery capability.

40+ Professionals	Multi-Discipline Technology & Support	Scalable Delivery Capacity
Recruitment & Sourcing Dedicated professionals supporting candidate discovery, screening and coordination.	Technology Consulting Multi-discipline technology capability aligned to client requirements.	Support Teams Operational support to keep communication and delivery moving.
Concurrent Delivery Capacity to manage multiple requirements with structured coordination.		

Client & Partner Network

Rudra IT Solutions works with multiple clients and business partners across India, supporting IT and non-IT hiring requirements across a range of industries and business functions. We are continuously expanding our client and partner network.

Our Vision

To become a trusted technology, staffing and talent solutions partner for organisations across India — combining strong talent networks, experienced professionals and a technology-driven delivery approach to help our clients build the right teams, faster.

Built for Long-Term Partnership

Our objective is not simply to fill positions — it is to build relationships.

We take the time to understand each client's business, team culture and long-term talent strategy before presenting candidates or resources. Every engagement is backed by a commitment to quality, speed, transparency, reliability and partnership.

QUALITY	SPEED	TRANSPARENC Y	RELIABILIT Y
